ALTERNATIVE EDUCATION PROGRAMS

The Franklin Lakes Board of Education endeavors to provide an educational program adjusted to the needs of the individual child within the financial means of the district. Grouping enables a more efficient use of staff in meeting these needs. Program adaptations provide another means of using staff efficiently and effectively to meet the needs of many children.

The Franklin Lakes Board of Education recognizes that the active engagement of each pupil is a primary requisite for sound teaching and learning to take place. When a child is unable to benefit from the educational program the board, upon recommendation of the chief school administrator, shall make a determination of the student's risk for school failure and a decision regarding the student's placement in an alternative education program. For general education students the determination shall be based on the following, including but not limited to:

- A. The student's academic, health and behavioral records, including the student's IPP, if one has been developed, and the results of available testing, assessment or evaluation of the student;
- B. Consultation with and notice to the student's parent/guardian; and
- C. Information provided by the school-based multidisciplinary team responsible to provide intervention and referral services (see board policy 6164.1 Intervention and Referral Services),

Decisions regarding the placement of a student with a disability in an alternative education program, shall be based on the recommendation of the child study team and consistent with the student's individualized education program (IEP).
